

How & Where to Recycle Used Motor Oil

- ❖ Pour all collected used oil into a clean, empty, sealable container such as a plastic milk jug. Specialized used oil containers can be purchased at local auto parts stores.
- ❖ Do not mix used motor oil with any other substances, such as antifreeze, paint or other chemicals.
- ❖ It is a good idea to call ahead to confirm the hours of operation and to be sure that the site still accepts used oil.
- ❖ At the collection site, ask an attendant where to deposit used oil. Don't leave your container of used oil at the site unattended. And take your empty container home with you to use again.
