

Hanover Township – Trash & Recycling Cart Delivery Update

Hanover Township residents,

We want to provide an important update regarding the delivery of your new Trash and Recycling carts. Due to a slight delay in the supply chain, the delivery schedule has been adjusted as follows:

- **Delivery to residents will begin: Monday, December 22**
- **Delivery completion expected by: Tuesday, December 30**

Important Note for Residents:

Please place your trash and recycling out for your first scheduled collection during the first week of January. We encourage residents to use the 96-gallon carts that are provided. For the first collection, residents may utilize existing carts and bags. In the first week of service, our teams will ensure that all waste is collected, regardless of the container type.

We appreciate your patience and understanding as we work to ensure every household receives their carts promptly. These new carts are part of our ongoing commitment to improving waste collection efficiency and sustainability in Hanover Township.
